Dear Shelly Cerio,

I am writing in regards to the open positions advertised on the official Nvidia website's job search page. With over a year and a half as a General Manager for Clemson University's Esports club and major virtual environment creation experience, I have become proficient in team management and virtual world development. I believe these skills, along with my ability to work creatively and efficiently, make me an ideal candidate for these roles.

As a general manager, I have

- Recruited new, incoming talent across multiple states
- Managed multiple teams of 3-4 people at once
- Been responsible for the behavior and attitude of 15+ participants as we represented our college in front of thousands of people

Attached is my resume for further reference. I am happy to provide any additional details and am open to any contact or discussion about this position. Thank you for your time.

Sincerely,

Patrick A Woodrum
